

Letter from the Chair:

On behalf of the five sister SPE Sections including Ohio Petroleum, Pittsburgh, Northern West Virginia, Appalachian, and East Kentucky we would like to cordially invite you to the 2023 Society of Petroleum Engineers Eastern Regional Meeting being held at Oglebay Resort in Wheeling, WV. This year the event will be held on 3-5 October and will include a reception, technical sessions over two days, a keynote luncheon, exhibits, and a golf outing.

The Technical Program Committee encourages you to help shape the technical program by submitting paper proposals for publication and subsequent presentation on the following topics, especially case studies:

- Drilling and Completions
- Production Engineering and Well Testing
- Petrophysics and Geology
- Reservoir Engineering and Simulations
- Climate and Energy Transition
- Health, Safety and Environment

Proposals will be accepted online through 17 April 2023; authors will be notified of acceptance in early May. For more information, or to submit a proposal, please visit our website at www.speeasternregional.org.

Oglebay is a 2000-acre public park that features dining, cabins, lodging, the Good Zoo, West Spa, museums, gardens, and championship golf. Located 40 miles southwest of Pittsburgh, it is the only self-supporting public municipal park in operation in the United States. Outside Oglebay you will find many other entertaining destinations such as Wheeling Island Casino and Racetrack, Capital Music Hall, and many dining and shopping destinations.

All proceeds from this event will go to scholarship opportunities for Petroleum and Natural Gas Engineering students across the country to support future leaders and promote success within our industry for many years to come. We look forward to hosting you at Oglebay in October.

Mark Pierce, PE
Chair, East Kentucky Section
